Vulcan
Water Products

Industrial Line

Vulcan provides an eco-friendly water treatment system which prevents limescale and rust in the water pipes and equipment. The method is based on the Vulcan-Impulse-Technology and treats the water without applying any chemicals or salt.

Special electronic impulses change the crystallization process of the calcium in hard water, causing the particles to lose their ability to stick to surfaces.

Application areas

- Water Treatment & Distribution
- Dust Control & Spray Applications
- Equipment & Utility Loops
- Process & Production Systems
- Cooling & Heat Exchange Systems
- Steam & Power Generation

Benefits

Productivity increase due to the reduction of limescale incrustations

Spend less on machinery maintenance

Inexpensive installation without interruption of the production process

Maximum working life of expensive production equipment

Reduces chemical use in many areas

More efficient use of energy costs

25 YEARS INTERNATIONAL WARRANTY

A 25-year international warranty is granted for all Vulcan units. Due to the special acrylic protection these units keep on running with a life expectancy of over 30 years.

Model sizes from ½" up to 40" pipe diameter

Vulcan S150

Max. pipe diameter: 8" (~ 200 mm)
Max. capacity: 180 m³/h (790 gpm)

Vulcan S250

Max. pipe diameter: 10" (~ 250 mm)
Max. capacity: 350 m³/h (1540 gpm)

Vulcan S350

Max. pipe diameter: 14" (~ 350 mm)
Max. capacity: 500 m³/h (2200 gpm)

Vulcan S500

Max. pipe diameter: 20" (~ 500 mm)
Max. capacity: 800 m³/h (3520 gpm)

Vulcan X-Pro 1

Max. pipe diameter: 30" (~ 750 mm)

Vulcan X-Pro 2

Max. pipe diameter: 40" (~ 1000 mm)
